

10 KM 10 WEEK TRAINING PLAN

The Do What You Want 10 week training plan is cunningly designed to fit seamlessly into your life. This is not a training plan dictatorship - if you feel the need to binge watch Netflix on the same day as your long run...change your long run.

So instead of a daily assignment, we bring you seven priority levels each week for you to allocate as you see fit. There are a few rules though (let's call them tips) to help you get the best out of this plan. See overleaf.

	P1	P2	P3	P4	P5	P6	P7

- * Priority 1 and Priority 2 should not be done back to back. Make sure you have at least one day of Priority 3, Priority 4, Crosstrain or Gym, or Rest in between P1 & P2.
- * EP = your desired Event Day Pace ie. 55min for 10km is 5:30 per km pace or 27:30 for 5km
- * Hills means find a loop that includes several hills. Run at a steady pace up the climbs - as the weeks progress you'll find you be able to include these in all of your runs.
- * P1, P3 & P4 should all be done at a comfortable, but steady pace. You should be able to maintain a conversation with your running buddy.
- * X = Cross train. This might be a bike ride, swim, spin class, yoga/pilates or a walk with the dog. Weights should be kept light with high number of reps.
- * On event week make sure you have at least 2 days rest before your 10km event at the G.J. Gardner Homes Whangamatā Half Marathon.
